Industrial Estate  
Abbeyfeale,  
County Limerick  
IRELAND  
Tel: 353-68-31284  
Fax: 353-68-31377

Our Hooked Screens are made to fit various separator manufactured units. These include OEM companies like Tyler-Hummer, Derrick, Link-Belt, J&H, Midwestern, Triple S Dynamics, among others. Canvas inserts are provided for fine mesh screens for protection against premature screen wear.

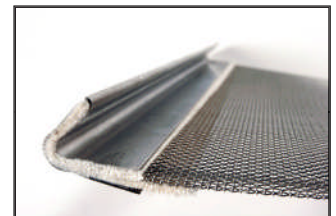

Standard galvanized hooks are available in Type 2, Type 3, and Type 5 styles. Stainless steel hooks are also available on request for special applications. Mesh edges that are not sealed with a hook are folded or sealed with plastic to prevent unraveling and for protection during screen handling. Screens can feature a single layer of mesh or a double layer using a coarser mesh for top screen support. A triple layer screen is also available for specialized applications.

*For a quote or when ordering, please provide:*

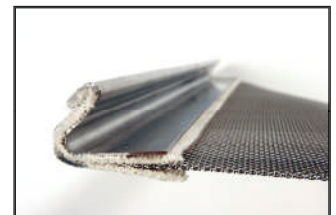

1. Screen dimensions along with the outside clamp with "OCW".
2. Mesh size, wire diameter, and alloy (along with backup screen if required).
3. Make or model of equipment.
4. Hook type.

type 2 hook

type 3 hook

type 5 hook
