MESH CLEANING BALLS

Mesh cleaning balls are important in the operation of almost every dry product screener. They help to control screen blinding and improve screen performance.

GDW offers:

- A variety of compounds, like Neoprene and Natural Rubber, EPDM, Nitrile, and Silicone to fit your temperature and chemical requirements.
- Sizes ranging from 5/8" to 2".
- Custom colors available.

FLEXIBLE CONNECTORS

Several options are available to you for your connecting requirements. *These are:*

- Molded corrugated boots
 - 4" to 10" diameters available in 10-3/4" length
 - 6" & 8" diameters available in 12" length
 - Black Neoprene & Natural Rubber, Black EPDM, Red & Translucent Silicone along with other compounds are available.
- Rubber Coated Nylon Socks
 - Custom made to fit almost any size requirement. Elastic shock cords and spread rings available on request.
- Seamless Gum Rubber Tubing
 - Available in several compounds
 - Diameters available in 6", 8", 10" and 12"
 - Wall thickness of 1/8" & 1/4"
- Clear Polyurethane Tubing
 - Up to 100 foot roll lengths
 - Great for USDA and FDA applications
 - 4" to 12" Inside Diameters available
