

Edged Screens

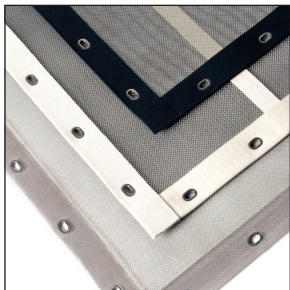

Made to Your Custom Size Requirements

Edge Treatments

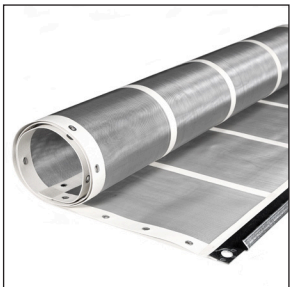

Our Edged Screens are made to fit any type of rectangular or box sifter including equipment made by virtually any original equipment manufacturer. Screen sizes are available in 12" to 80" widths with

lengths made to your custom size requirements. Other shapes and sizes are available upon request.

Edge Treatments

Each screen can be provided with edge treatments made with white canvas, PVC or black high temperature. Center wear strips and stainless steel grommets for automatic screen tension can be provided upon request.

Sand and Mineral Screens

Replacement screens for sand and mineral machines are available upon request. Contact your sales rep today for availability.

Accessories

Items such as Flexible Connectors, Molded Corrugated Boots, Rubber Coated Nylon (RCN) connector sleeves are available. Several diameters and base polymers are also available.

Quoting/Estimate Requirements

Please provide the following information when requesting a quote from your sales representative:

- Screen dimensions
- Mesh size, wire diameter, and alloy
- Make and model of equipment
- Edge type: Canvas, PVC, or high temperature
- If center wear strips or tension grommets are required

Replacement accessories also available for your separator machines.
