

Hooked Screens

Made to Your Custom Size Requirements

Hooked Screens

Our Hooked Screens are made to fit various separator manufactured units including most OEM companies. Canvas inserts are provided for fine mesh screens for protection against premature screen wear.

Standard galvanized hooks are available in Type 2, Type 3, and Type 5 styles. Stainless steel hooks are also available upon request for special applications. Mesh edges that are not sealed with hooks are folded or sealed with plastic to prevent unraveling and provide protection during handling. Screens can feature a single layer of mesh or a double layer using a coarser mesh for top screen support. A triple layer screen is also available for specialized applications.

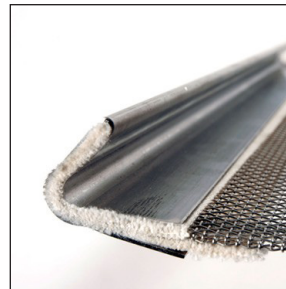

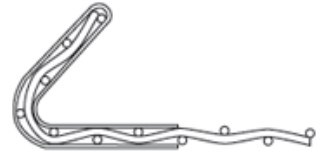

Quoting/Estimate Requirements

Please provide the following information when requesting a quote from your sales representative:

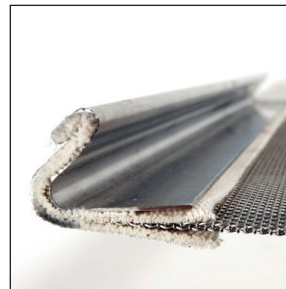

- Screen Dimensions and the Outside Clamp Width
- Mesh size, wire diameter, and alloy (along with backup screen if required)
- Make and Model of Equipment
- Hook Type (2, 3 or 5)

Type 2 Hook Screen

Type 3 Hook Screen

Type 5 Hook Screen
