

Replacement Separator Screens

Hooked Screens

Hooked Screens

Our Hooked Screens are made to fit various manufactured separator units. They include OEM companies like Tyler-Hummer, Derrick, Link-Belt, J&H,

Midwestern, Triple S Dynamics, among others. Canvas inserts are provided for fine mesh screens for protection against premature screen wear.

Standard galvanized hooks are available in Type 2, Type 3, and Type 5 styles. Stainless steel hooks are also available upon request for special applications. Mesh edges that are not sealed with hook are folded or sealed with plastic to prevent unraveling and for protection during handling. Screens can feature a single layer of mesh or a double layer using a coarser mesh for top screen support. A triple layer screen is also available for specialized applications.

Quoting/Estimate Requirements

Please provide the following information when requesting a quote from your sales representative:

- Screen Dimensions and the Outside Clamp Width
- Mesh size, wire diameter, and alloy (along with backup screen if required)
- Make or Model of Equipment
- Hook Type (2, 3 or 5)

Type 2 Hook Screen

Type 3 Hook Screen

Type 5 Hook Screen
